President's Message...

Dear Shooters, Friends, and Sponsors,
Welcome to the 139th Ohio State Trapshoot! It's an honor to stand with you all as we come together once again to do what we love—break targets, push our limits, and enjoy the incredible camaraderie of this sport.

Trapshooting is more than just breaking clay targets—it's about discipline, determination, and the pure joy of watching that target shatter in midair. Whether you're here to chase a championship, set a personal best, or simply enjoy the experience, I encourage you to embrace every moment.

This event is a celebration of skill, sportsmanship, and passion. The competition will be fierce, but the friendships built along the way are just as rewarding. Support your fellow shooters, embrace the challenges, and remember—every target is a new opportunity to succeed.

I would like to acknowledge the dedication and hard work of the OSTA Board of Directors, as well as our Secretary and Treasurer. Their unwavering commitment ensures that our sport remains vibrant and that the Ohio State Trapshoot continues to set the standard for excellence. Their efforts behind the scenes make this event possible, and we are all grateful for their leadership.

A special thank you to the Cardinal Center staff and trap help—your hard work and dedication keep this event running smoothly, and we truly appreciate everything you do to make the Ohio State Trapshoot a success.

To our sponsors, volunteers, and everyone who makes this shoot possible—thank you. Your dedication is the backbone of our success, and we couldn't do this without you.

Now, step onto the line with confidence, keep your head down, your eye on the target, and most importantly—have fun! Let's make this year's Ohio State Trapshoot one to remember.

Break 'em all, and let's Make Trapshooting Great Again!

Anyone in a tie who leaves the grounds or does not answer a call will forfeit his/her rights to shoot off. In the event that shooters are called for a shoot-off and then the shoot-off cannot be concluded (ex. time limitations, weather conditions), only those shooters who have checked in will be eligible for trophies. For any shoot-off that is not concluded, winners will be determined by long run from front, and ties will be determined by a coin flip performed by a tournament official.

Any shooter who has declared a special category at the time of classification and whose score qualifies for any trophy in his/her declared category, will compete for the category trophy and not for place, class or yardage group. Any special category shooter, whose score does not qualify for a trophy in his/her category, may compete for place, class or yardage group trophies.

There will be no exceptions to this rule. **Failure to declare your classification does not constitute an A.T.A. classification error. Please check your classification receipt before leaving the classification desk.**

2024 HALL OF FAME INDUCTEES

Ronald W. Comerford

IN 1934, RONALD COMERFORD was born in Cleveland, and he resided in Boardman. He was a 1952 graduate from West Technical High School and attended Baldwin-Wallace College in Berea. He was an engineer by trade and an avid trapshooter.

In 1958 at the age of 24, he was stuffing paper wads into Federal paper hulls working on producing 100 shells for the next day. The tedious reloading on his Acme press using 4 separate pieces of cardboard to make a wad column in the shell, got this engineer wishing for a better design. He had to find some way to have a plastic sealing and something in the middle to absorb some of the shock. Ronald sketched out a design and had it produced at a plastics company in Cleveland. A single-cavity mold which produced 32 wads per molding was developed. His prototype worked almost perfectly the first time! His new plastic wads were a sensation that revolutionized and changed shooting forever. This miraculous invention, a one-piece, all plastic shotshell cup wad, modernized reloading and brought more consistency to shotshell patterns. Ron established a company called RonCO Distributors. For a while, he sold Ford wads which were similar to the configuration of the Winchester AA wad but yellow.

Ron and his wife Peggy were lifelong world travelers. After retirement, he also enjoyed riding his Suzuki motorcycle with a sidecar for his gun & gear, fishing, and sail boating. Ron said, "the wad was my 15 minutes of fame!". Plastic shotgun wads have not changed much from the "red radishes" he first produced from red plastic and his shotgun wad is the standard still in use today. Ron's philosophy of life was "to live according to the Book and try to be a decent man". Ron passed away on January 23, 2024.

Robert J. Stuart

IT WAS AT A LOCAL GUN CLUB on a Sunday when 13-year-old Bob Stuart was introduced to shooting trap. Like so many trapshooters, it all started with a family member (Uncle Frank) taking them out with a borrowed gun (a Mossberg 16-gauge pump), and the rest is history. However, in 1972, his shooting was put on hold for college. After studying theater arts and broadcasting, he travelled a lot working as a stagehand and road crew for several bands.

In the early 1980's, Bob became interested in computers and bought a computer store in the Buffalo area. He began shooting at the local gun club and was elected to their board of directors. It was in 1986 while hosting a large, 2-day registered shoot at the club, Bob realized the need for a computer for trapshooting events. This prompted him to write software code to register shooters and run shoot operations. His software could produce a high gun list and calculate options with speed and accuracy. This was the start of Bob's career cashiering shoots. In 1989, he was hired by Elwood "Woody" Brown to run computer operations in Pennsylvania. Bob was the code writer but Woody had many of the ideas and was instrumental in promoting his computer system. Bob continued to upgrade his system and integrated it with cashiering.

In January 1993 while in Georgia cashiering the Dixie Grand, Mr. Bopp and Mr. Bradford of the Amateur Trapshooting Association approached Bob asking him to run the Grand American that year. Bob was stunned by the invitation and gladly accepted. The following year was the first year his system was used by the Ohio State Trapshooting Association and has been in place for over 30 years.
